FREE 2007 Test and Measurement Product Catalog

Keithley's 2007 Product Catalog contains over 400 pages detailing the company's sourcing and measurement products, DC switching, RF switching hardware, RF signal generation and analysis instruments, data acquisition solutions, semiconductor test systems, and optoelectronics test hardware, plus how to:

- Choose the most effective solution for your application.
- Increase productivity and lower your cost of testing.
- Avoid common measurement errors

Request your **free** copy of this fundamental resource, visit <http://www.keithley.com/at/410> or call **1-800-588-9238**.

Why is dScope Series III making waves in audio test?

- ✓ Intuitive feature rich software
- ✓ Accurate rapid results
- ✓ Responsive expert support

...and surprisingly affordable at \$11,305.00

These are some of the reasons why companies including Bose, Blaupunkt, Mitac, Samsung, Philips and Sony are choosing dScope Series III for their R&D, verification and production test needs.

Electronics packaging for tough land, air or sea requirements

When the specs for packaging your military, government or security electronics are exceptionally tough, put our knowledge and experience to work for you.

- Exceptionally high EMI/RFI attenuation
- Shielded I/O access and air filtering
- FCC/VDE, EMP/TEMPEST
- Mil-Spec 810 and 901
- Protection against earthquakes, dust, shock and vibration
- NEBS TR 63 for Zone 4
- 3D CAD (IGES) formats and more

For more information, call us: 800-204-7225, fax: 630-987-5314

ANALOG

Novotechnik's **RFC Series** of non-contact rotary sensors take non-contact technology to the next level. The sensors are comprised of two distinct components.

There is space between one component, a magnet embedded in the rotating shaft adapter, and the stationary module containing an integrated circuit that utilizes the orientation of a magnetic field to provide analog output representing the calculated angle – from 0° to 30° up to 360° in 10° steps.

RFC specifications include:

- Virtually unlimited life – no moving or mechanical parts
- 12-bit resolution
- Repeatability of <0.03% of signal range
- Sealed to protection class IP 67
- Two voltage output options

For more information, pricing or our free position sensor catalog, contact:
